Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative initiated a telephonic interview with the examiner to discuss possible amendments for an RCE. Applicant's representative discussed adding limitations such as a body side liner, absorbent core, and backsheet to help differentiate the instant claimed invention from the cited prior art. The Examiner agreed that these limitations would probably overcome the prior art of record, however, the new limitations would require a new search and or consideration.
